- All We Can Do is Reduce the Odds of Losing -

My research was developed over many years to help others. All my trading profits have funded my Temecula Valley Food Pantry for over 30-years. With Christmas nearing my hope is there are others that would like to donate to bring joy to those that have less.

Hello my friends . . . my name is Christophe S Becker, 75 years old. If we can get another year out of my research, that will be fun for all of us.

Read Me: *Friday – Nov 27, 2026 the new full update and re-sorted list I will "blank" out the top nine symbols from each PDF column. This is the best of the best or the Top-5% of the S&P right now.* ***To get the complete PDF*** *with all the symbols, donate through PayPal* ***$25*** *for my past months effort, as I never know if I get another tomorrow. A Link will be emailed to you with the complete list with daily updates for 30 days.*

Diversification . . . with good stock choices works best, not gimmick strategies. With modern intelligent computing I have not used stock charts in years. My years of coding uses an approach that sorts all 500 stocks of the S&P "Best to Last" on a PDF . . . for my family. The sort is based upon each stocks behavior from the previous two weeks.

There are many reasons why some days the PDF would not be posted. First is my internet service going down. Next would be my computer and if I make a change that crashes the code, seems there is always a bug! Next would be where the stock data is retrieved. Then there is the website I upload my PDF.

I created a ***Facebook group*** but not really interested in managing it. You can talk to me there or share ideas with others. **S&P 500 Sorted Best to Last**
