Organized are the Top 300 stocks of the S&P, sorted top performers, best to last.

The column under header "This Week" is updated every Friday, the total profit since the previous date under "Pre 2 Weeks" to the right.

"Cumulative" column collects the profit of the last 10-days, then all the symbols are updated or bi-weekly

The best Time to Buy is 30-minutes before Market Close on Fridays. Favor poop green indicators.
